California's Approval.  
Governor Markham of California, in compliance with a resolution of the legislative assembly of that state, has notified the people of California voted upon a proposition favoring the election of United States senators by the people instead of by the legislature, and by a vote of 111,000 to 15,000 expressed their approval of the proposed change in the constitution of the United States.

A Workingman's Party.  
A movement is on foot to organize the workingmen of this city into a close political party, and although no definite action has yet been taken, it is believed that the project will be speedily carried out, the idea being to secure for the workingmen such recognition at the hands of the administration as their numerical strength merits.

## A BIG PLACER SYNDICATE.

The Colorado River Properties to be Developed.

COSTLY HYDRAULIC PLANT.

Superintendent Nesbitt's Pitiful Presentation of the Silver Question.

He Has Resigned the Superintendency of the Mammoth-The Bullion-Beck Troubles—A Committee will Lay the Case before Manager Hyde.

The following telegram was received yesterday from Green River, Utah, which only confirms the information that the true gold fields are in the Henry mountains and the streams and gulches leading from them run into the Colorado river.

For some months negotiations have been pending for the syndication of certain Colorado placers. This movement is necessary for the economical development of the various properties. They are all good claims, but heavy hydraulic and amalgamating machinery is required. It is now announced that the preliminaries are satisfactorily arranged and that Salt Lake and Denver capital will proceed to fully develop the properties. The placing of this machinery will involve an immediate outlay of at least a quarter of a million dollars.

The impact that this movement will give to other and equally valuable properties on the Colorado will place the camp in the front ranks of the great producers, giving it deserving prominence and bringing necessary prospectors to develop the river. Only a very small portion of the river has had other than the mere cursory examination. There are hundreds of small gulches and side canyons leading into the Colorado river which are rich in gold and as yet unlocated. Many of these are at present comparatively inaccessible, but the opening of the region will obviate existing difficulties and place supplies within easy reach.

PRACTICAL MINING VIEWS.

Superintendent Nesbitt Talks About Silver and the San Juan.

N. M. Nesbitt, superintendent of the Mammoth mine at Eureka, was at the Cullen last night, but intends returning home today. A HERALD reporter met him in the lobby of the Cullen and he affirmed the report that he has resigned his position as superintendent of the Mammoth, the resignation to take effect Feb. 1, or as soon thereafter as his successor is appointed.

"I have no idea who my successor will be, nor do I know at what time he will be appointed. I only know my resignation in and has been accepted," said Mr. Nesbitt.

"No, I do not contemplate leaving Utah. I am a mining man, have been for years, and the prospects of the territory in a mining way are strong enough to hold me for a time, anyway. I have traveled extensively through the mining regions of Montana, Idaho, Nevada, Arizona and the other western mining communities, and I believe Utah will prove to be the best of the lot."

"Things are of course quiet now, and we are not doing much at the Mammoth, only working a force of about ninety men. With silver at 83¢ our works cannot, in the order of things, be so lively as they otherwise would. Talking about silver, I will preface what I have to say with the remark that when the great financiers of the nation, who represent the brains of the money market, are on this question, such fellows as I have no right to speak publicly. But there is one thing any man, no matter how small his mental capacity, can see. When I sell 100 grains of silver to the government for 83 cents, and buy only 42½ grains for \$1, someone is being robbed."

A question regarding the all-absorbing mining topic, the San Juan excitement, elicited the reply from Mr. Nesbitt:

"I really believe there is something of solid gold behind all the conflicting reports constantly coming in. I have been pretty close there several times and I do not believe it is all smoke and no fire. It is a hard country to get into and a hard country to get out of, and for that reason will probably not know a great deal of it for some time."

THE BULLION-BECK TROUBLES.

The Miners Firm in Their Refusal to Accept the Reduction.

EUREKA, Jan. 16.—The situation at the Bullion-Beck and Caroline remains practically unchanged as reported Sunday. When the men came off shift Saturday evening they were addressed by Manager A. E. Hyde, who, in the course of his remarks, stated that the mine had been running for a long time at a loss; that the company had decided that it was only just for the working men to stand their ground and not to be reduced to a general reduction of 50 cents per day had been decided upon.

Upon the conclusion of Manager Hyde's address at the suggestion of Superintendent Taylor, the miners in a body met in the Miners' Union hall to take the matter under consideration, the company allowing them until 10 p.m. to decide whether or not they would accept the reduction.

At the meeting an agreement was prepared and signed by all the miners and above present, refusing under any circumstances to accept less than \$3 per day for miners and \$2.50 per day for laborers and a committee of five appointed to wait upon Manager Hyde and lay the agreement before him.

This was done, but Mr. Hyde refused to consider the matter or make other proposition than the one originally outlined by him. In the course of the conference it was asked if wages would be raised if silver came up to 95 cents or \$1, but he refused to make any promises, which impels the men to the belief that if a reduction is submitted to it will be a permanent arrangement.

Another meeting was held by the miners Sunday, at which your correspondent was present. The meeting was enthusiastic but orderly, and all the advice given was in favor of good order and moderation. The report of the committee was read, giving the refusal of the company to consider the men's demands, and all present affirmed their determination to stand by their original agreement.

John T. Harrington was appointed a

THE STOCKHOLDERS MEET.

The Utah Slaughterhouse Company Will Erect a Big Packing House.

Its Capacity Will Be 1,000 Animals Daily The Knudson Brothers Will Erect A Pork Packing Establishment Near Brigham City.

The future is full of promise for the Utah stock yards. Although young in years, this important enterprise long ago outgrew its swaddling clothes and is now one of the most important factors in the commercial growth of this city, as well as a material aid to the development of the stock industry. The proceedings at the annual stockholders' meeting, held in this city yesterday, argue great strides during the year 1893. One hundred and ten thousand dollars, over two thirds of the capital stock was represented. The president and secretary submitted full reports, which were very satisfactory to the stockholders, as they showed the company to be placed on a fine financial basis, and to make it not only very profitable to the stockholders, but also to the community at large. The stock interest of the territory, was only a question of time. In a few days these reports will be in proper shape for presentation to the public and much interesting information may be gleaned from them.

The president recommended further improvements in increasing the capacity of the yards and the erection of buildings for the accommodation of employees, as well as owners of stock, while making and receiving shipments.
